

NICE Academy Conference in Krakow from September 6-8, 2018

FOSTERING THE DIALOGUE BETWEEN SCIENCE AND PRACTICE IN CAREER GUIDANCE AND COUNSELLING

From September 6-8, 2018, the Jagiellonian University in Krakow, Poland, represented by our valued colleague and Board member, Prof Czesław Noworol, will be hosting the NICE Academy Conference 2018 – an event of the Network for Innovation in Career Guidance and Counselling in Europe, and organised by the NICE Foundation.

General Conference Concept

The conference will be a structured learning event, a new kind of conference, which primarily aims at promoting and showcasing high-quality, scientifically based training and practice in career guidance and counselling including through such formats as keynote lectures, master classes, transdisciplinary learning activities, training workshops, peer-learning activities, etc. We will also reserve some space for the presentation of original research findings on the conference theme to build bridges between research-based training and practice-oriented research.

Conference Planning Team

C. Noworol, B.-J. Ertelt, J. Katsarov, P. Kruythoff & M. Petermandl
